

CAMBRIDGE HOUSEHOLD STATISTICS

Mix of household types

(by census tract)

-  Family household: married couple with own children
-  Family household: married couple without own children
-  Family household: unmarried householder with own children
-  Family household: unmarried householder with other family
-  Non-family household: one-person
-  Non-family household: more than one person
-  Water
-  Open space

The Census designates one person, often the person who has title to the housing unit, as the householder. A family household is one where the householder lives with at least one person related to him or her by marriage, birth or adoption. "Own children" includes only those under 18 years of age who are related to the householder by marriage, birth or adoption.
